April 26: Langley Centennial Museum

April 29: Fire Drill, Hot lunch & Fun day

April 30: Pro-D Day (No school)

Dear GLA Parents and Guardians,

April 09, 2021

The quarter is well underway, and all the students are working hard! We have an exciting program this quarter, so please ask your child about their school day. Good questions for students to reflect on their day include:

- Tell me something interesting that you learnt today?
- What was your favorite part of the day?
- What is something that you are looking forward to this quarter?
- Are there any challenges that you are experiencing?
- What goal did you set for yourself today? And did you achieve it?

I have been encouraging students to set small goals every day. Small goals make big changes at the end of the week, month, and school year!

Respectfully,

Mrs. Imbrailo

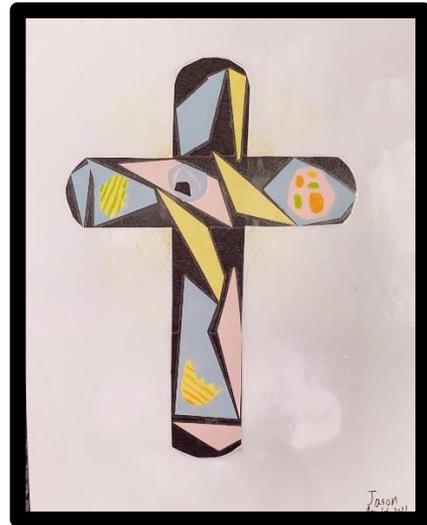

UPCOMING EVENTS

EASTER EVENT

REMEMBER THE HEALTH CHECK APP!

There is a new daily health check app that the BC government has recently put out. Please go to <https://www.k12dailycheck.gov.bc.ca/healthcheck?execution=e1s1>

We are reminding families to be vigilant and keep their child/children home when they are sick. Bringing a sick child to school allows for the spread of germs and puts other children at risk of getting sick. Please notify the teachers of any absences. We thank you for your cooperation. Please continue to assess your child daily for symptoms such as sore throat, cough, fever, headache, difficulty breathing, vomiting or diarrhea.

The infection and prevention control measures in place have been shown to be effective at stopping or limiting the transmission of COVID-19 within schools. However, there are areas of renewed focus:

1. Always prevent crowding (pay attention to the start and end of the day)
2. Avoid close face-to-face contact whenever possible
3. Wearing masks and using hand sanitizer
4. Washing hands more frequently
5. Ensuring that mask wearing does not reduce or replace the practice of physical distancing for both staff and students
6. Ensure physical activity is delivered in line with the guidance in this document.
